“ When I was 6 years old I had rheumatic fever and over the next 8 months I was in and out of the hospital more times then I could count. My mom was told that I didn't have a great chance of recovering. I remember how Brownie would bring me special treats to try to get me to eat. Every day that she was on duty she would take special time to put lotion on and rub my back. I loved Brownie and consider myself lucky to have been her patient. I am now 53 years old and without Brownie and people like her urging me to live I may not be here today
