“ I will forever be grateful to Eddie for his continued help. When we moved into this little farm house on 40 acres, we had no clue how the spring-fed water system worked on our property.

Eddie had helped one or two prior homeowners of the same property, so he intimately knew the inner workings of our system. He came out and cleared the line of frogs when our water stopped flowing days before our son's home birth.

He was kind and generous to us for several years. I dearly appreciate his wife for taking our phone calls and helping us to coordinate.

We live in the Florida panhandle now, but every time I see photos of our place in TN I remember Eddie as the guy who helped us keep it all going.
