“ I met Craig in the mid-80s when we both worked for TVA. In those days I knew Craig to be a very thorough and competent engineer. So many years later when Craig contracted me about coming on board with CNS to support as a subcontractor I had no problems working to get him in. Craig again proved himself to be a technically competent engineer willing to continue to learn and to do whatever was asked of him. Craig helped us through a very difficult period. I will miss Craig but I know he is in a much better place. So I will say Craig's family that my prayers are with you during this time. Know this that “Earth Has No Sorrow That Heaven Can't Heal.”

God Bless

“ My sincerest condolences for your loss. I met Craig when he came onboard as a subcontractor for CNS. I enjoyed hearing about his family/grandchildren and trips to Dollywood. May your cherished memories provide you comfort as you grieve and may you find peace in God's promises. With sympathy, Rhonda Gibbons

“ *Very sorry to hear that Craig has passed. We had no idea that he was ill. I worked with Craig for most of his career at TVA and DOE facilities. It has been my pleasure to have worked with Craig throughout our careers. There are many, many fond memories of our working relationship through over 40 years working together.*

“ *Craig and I worked together for a few years early in his career as a Civil Engineer. He was impressive for his enthusiasm, professionalism, expertise, and dedication and devotion to his duties. He was a bulldog in pursuing his work and, once he latched onto his assignments , he never let go until he was satisfied with the results. He was talented, quick to learn, and most professional in all aspects of his work as well as his interface with clientele, peers and associates.*

It was always a joy to interact with Craig and talk about "back home." He was from Hohenwald and I from Columbia. He loved sports and he loved to play baseball. As a matter of fact, he was a very talented, enthusiastic, and aggressive baseball player. One could always expect to see Craig on Monday mornings with "skid burns" from sliding into bases.

It is always tough to loose a loved one and I pray that Craig's family will receive and accept the peace and understanding that comes only from our Lord and Savior Jesus Christ and that He will comfort and heal their broken hearts as they deal with this loss.

“ So sorry to hear of Craig’s passing. I worked with him at Y-12 in recent months. Even in times of heavy workload, pressures and stress Mr Turnbow was always a pleasure to be around and kept a positive outlook. He always treated everyone with dignity and respect, and the world is a safer place because of his work. May God bless his family in this time of grieving...we will sure miss Craig..

“ Craig was a couple of years ahead of me in school but we were pretty good friends. After Craig got his degree one of his first jobs was in Midland, Texas for one of the oil companies. I was home on leave after serving in Vietnam and Craig was home visiting from Texas. He heard I was home and stopped by my parents house to say hello. I told him I had to report soon to my next duty station at Fort Hood, Texas. He said "I'm going that way why not ride back with us and spend a few days with me and Betty." It didn't take long to say yes because Craig was always fun to be around and had a wonderful sense of humor. It was a pleasure and honor to get to spend some time with him and his wonderful wife Betty. Although I unfortunately haven't seen much of him over the years I know he will be missed by everyone who knew him.

“ Craig’s mother and my mother were Peevyhouse sisters and thus Craig and I were 1st cousins. However we were much closer than that growing up together in Hohenwald. Craig was my senior by 9 months but more like an older brother. I have 71 years of fond memories about Craig but one humorous memory involved my daddy, known to Craig as Uncle Tinty. We were eating supper at my house and Daddy ate an entire little green pepper in one bite. Craig said “Uncle Tinty is that pepper not hot “ to which Daddy replied “Not at all “ and ate another one. So Craig proceeded to take a small nibble and his eyes 🙄 immediately began to water and he ran to the sink and started running cold water over his tongue 🍷 and said to Daddy “Uncle Tinty I thought you said they weren’t hot 🤪 “ to which Daddy replied through tears 😂 of laughter “They aren’t to me “! After that Craig was always cautious when it came to statements from Uncle Tinty

“ When our paths crossed at work many times over 40 years, it was always a blessing to be around Craig's affable demeanor. Few, including me first, handle the ups and downs of our work and family lives as well as Craig. His approach was always forward looking and without judgment, an approach that served him well in this life and I am sure will continue to do so. May his memory be eternal. John McDonald
