“ *Danny, was my best friend for over 50 years we were high school friends and continued our friendship after leaving high school. We spend many days hunting together along with his brother Joe. Some of my best times in my life was spent with Danny.*

We also as young men worked together at Joe's animal hospital, and later at the supermarket. We traveled many miles together sharing a friendship with each other that I have never been able to duplicate with anyone else!

I will miss him dearly and pray that I will meet him on the other side.

RIP my friend!

Your friend
