“ Such a wonderful person and so talented. I have her stitched plaque in hanging by my sewing machine. Dave and I enjoyed our 8 years in Tennessee. Metal Ford Road was such a lovely drive, Ike you were driving through the woods back to an estate. Having you, Bill and Betty, for neighbors was a blessing. She will be so missed by many. I believe there are signs sent to us from above. I was just writing this sympathy card for you today... I am also getting packages ready to take to post office so I am out in garage looking for some tags to put names on the packages and not in the entire 5 years I have been here have I cleaned to the bottom of my wrapping and ribbon bin. ..today I clean to the bottom and what is there? ONLY this tag from a gift yous sent. No other tags on that bin! Angels are watching over us and so is Betty sending a sign everything will be OK. Hugs and Love to you and the family at this difficult time. Sharon Stingley
