“ *Katherine, I so wish I had known where you were during the last few years. I would have done everything I could to be there to take care of you. I have always loved you so much, and that will never change. You'll still be in my heart until I see you in heaven.*

“ *I will always remember Katherine for being such a warm, kind and loving person. Even after a hard day's work, she always had time and love for a busy little girl. Katherine always had a smile for me, and frequently bananas. She is a significant memory of my childhood, and I will always love her.*
