“ We think of you everyday, I keep your memory alive for katie i never want her to forget or her memories fade of you. I always make a point to include you in Holidays, special occasions, and just in our everyday conversations that katie & I have. I make up little songs for katie to sing that has you in them to give her something else to hold on too of you..

I teach her your favorite songs and she will play them over and over on YouTube. I tell her stories of you and the memories that me and you made the roadtrips, creekin, going shopping, getting our hair & nails done together, those late nights we would sit up on your couch real late talking about everything getting to know each other and finding out how much we are a lot alike and laughing at all the similarities we have. And how we also argued at times cause we were so much alike. I remember you saying in your driveway well we are just gunna have to agree to disagree cause we are so much a like and that's what makes us so much like dad and we bump heads, i laugh at the situation now and i know you do to cause we both was pointin our fingers in each others faces and bobin our heads. And to think back now we were just acting plum silly. 😊 But those are just some of our memories that no one could ever take away. And i will spend the rest of my life helpin mold katie in the young lady you would want her to be. We love & miss you more than words could say. I hope Daddy, Blake & you are having a good ole time up on them streets of gold i know blake is on a harley and probably doing a couple burnouts on some clouds and revs it up loud when them angels sing. Im sure blake has took you for a ride on it as well. Dad is in a Jeep racing on a straight stretch road on a warm day with the top and doors off and in the passenger seat is his daddy, and you my sister are in a barn in one of the stalls tending to puppies and you have all the pretty little ponies as well. 💜💚💙 Until we meet again.
