“ *I did not know Mike, but went to school w/his mother and believe that I met him at her visitation; she was buried the same day as my older brother. She in Hohenwald; he in Centerville, so just came to her visitation for a short time. The condolence message by his friend makes me wish I had known him, the description of him lets me know that he was a great young man. I send my sympathy and prayers to his wife, children, siblings and especially his aunt Johnnie Faye Skelton, who was one of my closest friends in HS and we still keep in touch. This family has had a great deal of sorrow in the last couple of years and I want them to know that there are folks out here who are praying for you all. In Christian Love, I am Anne Archer*

“ Mike was one of the most lively and energetic people I have ever known. No matter what task or obstacle was set before him, he would put an extraordinary effort toward accomplishing his goal, with commitment and dedication few could equal and none could exceed. To see him in action you would never imagine the physical disadvantages he overcame. I knew Mikey a long time before he told me about his birth. He was born extremely premature and the doctors had to perform extensive surgery on him to protect his fragile organs. He only had one lung, which amazed me given the pace he was able to maintain. Perhaps a lung had to be removed to make room for his huge heart, for no one had a bigger one than him. If a friend was in need, Mikey was always there. Above all else, he was devoted to his family. Whenever a decision was to be made his first thoughts were of how it might impact his children, they ALWAYS came first. I only hope they can now take comfort in knowing his pain is no more and his worries are forever gone. So long, Mikey. May you have free Pay-Per-View forever!
