“ *Smokey, What can I say that people have not already said. I had the pleasure of working with Smokey for a few years until he moved away. He was my smoking buddy. We got to know each other and come to find out he knew my dad. Small world. I have missed him so much since he left the hospital. He was always smiling and willing to help anytime he could. I am glad he is not suffering anymore. R I P my dear friend. You will be missed. I pray the Lord comforts the family at this time.*

“ I worked with Smokey for all his years at Nationwide Children's Hospital. His smile was loved and cherished by many who worked here with him. Folks were always asking me about him after he retired...he was just so good to people; he would help you in any way he could with no regard to himself. I loved him like an older brother and consider the years I worked with him as some of my finest times. I will miss him tremendously but will never forget him. Caroline, you know how much he meant to me...be strong during these times as that is how he would want you to be. If you need anything, please let me know....Ron
