“ I worked with Suzy at Save a Lot. We shared lots of good times even though the work was tough. The funniest moment to me was when Phil the bread man brought the bread. He was joking around with Suzy and she said, "Phil, you get back in that bread truck and get bread!" Then she cracked up fully realizing the double entendre. I will forever love Suzy and pray for the whole family because there will be hard times for them in the near future. I know Suzy is with the Lord because she was a good and kind person with lots of love in her heart.
