“ *My last name is supposed to be Burton on this account but this was the last picture I took off Tony and his baby sue (river Ann) . I will miss him tremendously but he is no longer in pain. We have spent the last two and half years together in sickness and health for better for worse. Prayers and thoughts to all the rest of our family and friends. Love you and hugs*

“ Dear Kathy, Thank you for all of the love & kindness you gave Tony this past year. Although he was on hospice, he seemed to be so much happier with you by his side. Tony will be sadly missed. He was a great brother & has been there for me many times throughout the years. I will miss our conversations about gardening, cooking, and fishing. I know he's fishing with dad right now & Heaven is rejoicing. He kept up the good fight over the last couple of years. Rest in peace my brother. You were so loved!

“ *I will miss you but I know that you were in pain and now you are not suffering. This pic was one of the happiest days of your life. You couldn't wait for river baby sue to be born and you love me and took care of me and we went through it for better and for worse with sickness and health. My prayers for your sons and brothers and sister and all your family and friends. Love you*
