“ I did not know Wilson but he is a distant relative. I had just learned of his connection to my mother and was trying to make a connection with him. I am so terribly sorry that I failed. I have heard from many sources that he and his wife were great neighbors and friends to all who knew them. I would like to send my condolences to his wife and all members of his family. I am keeping you all in my prayers. Anne Archer Nashville, TN If any of the family would care to contact me, please do.
